

Air & Waste Management Association Offers Webinar on Air Pollution Control Exports

Pittsburgh, Pa
2008-04-10

Pittsburgh, PA (April 10, 2008) The Air & Waste Management Association (A&WMA) will present a Webinar, “Best Markets for U.S. Air Pollution Control Equipment,” on Monday, May 12 at 2:00 p.m. EST.

“This Webinar is the perfect opportunity for attendees to find out the latest in air pollution control exports developments, and to get the inside scoop on what the promising markets are for the future,” said Adrienne Carolla, A&WMA Executive Director.

U.S. Department of Commerce Office of Energy & Environmental Industries international trade specialists Marc Lemmond and Todd DeLelle will lead the Webinar and will present their analysis on the latest issues and trends surrounding the exportation of air pollution control equipment.

The Webinar will cover the process of exporting air pollution control equipment, the leading markets that purchase these exports, and the promising markets of the future. Lemmond and DeLelle will also discuss the Chinese environmental market and explain why China has become one of the primary targets for exports in this sector.

For more information, or to register for the Webinar, visit www.awma.org/go/airpollutionexports08. For interested parties unable to participate in the live event, visual CD versions of the discussion will be available for purchase.

The Air & Waste Management Association is a nonprofit, nonpartisan professional organization that provides training, information, and networking opportunities to thousands of environmental professionals in 65 countries. For more information, visit www.awma.org.
